

# Toll Processing Price Quote List

**Shuck and Buck:** Remove flower from plant stem or stalk.

Bucked material will include any plant material that is on the stalk or stem. We recommend removal of fan leaf prior to shuck and buck.

Plant must be dried for at least 4 days before delivery.

Price based on per plant.

**Crude Oil from Industrial Hemp Biomass:** Price given in per pound of input.

Maximum Biomass THC percent is 0.3%. Maximum water content is 15%. Material must be free of pesticides and foreign matter and debris. CBD content of final product typically between 40-65%.

If output oil tests greater than 0.3% THC, customer will have the option to dilute with the solvent of their choice and they are responsible for any additional shipping costs that may occur.

Biomass with CBD content below 10% will be analyzed on case-by-case basis.

Product may be released to licensed processor or handler only.

Manufactured by NM.

**Full Spectrum Oil from Crude:** Price given in per gram of input.

Dewaxing service will remove waxes and residual ethanol to yield a dark oil. CBD content of final product typically between 50-65%.

Product may be released to licensed processor or handler only.

Manufactured by NM.

**Full Spectrum Oil to Distillate:** Price given in per gram of input.

Distillation service will remove impurities and residual terpenes to yield a yellow to dark amber resin. Price based on total input of crude. CBD content of final product typically between 70-85%.

Product may be released to licensed processor or handler only.

Manufactured by NM.

**Distillate to Isolate:** Price given in per gram of input.

The chemical processing of distillate to isolate out CBD in a crystalline material which is off-white to white in color. Biomass must be free from pesticides, foreign matter and debris.

CBD content of final product greater than 98%purity. If Biomass material contain sticks / stems / stalk in the plant material from the hemp plant, it may impact the ability to obtain a quality isolate.

Manufactured by NM.

**THC Removal**

Remove THC from your CBD oils to become compliant. THC removed is automatically destroyed upon separation. Price calculated based on total grams of input materials.

Manufactured by NM.

# Fixed Prices and Testing Price List

Name	Price	QTY	Subtotal
<b>Damage Deposit</b> Deposit is refundable if material does not damage equipment or tooling. In the event that foreign matter and debris damages the processing equipment, damages, labor, parts, and downtime will be subtracted from the deposit.	\$1,500.00	1	\$1,500.00
<b>Expedite Fee</b> Price adder per output gram for crude, distillate or isolate. Reduce the time to obtain the final product. Reduction in overall time to be estimated at the time the order is placed.	\$0.50	1	\$0.50
<b>Potency Test</b> Testing of purity, potency and identity per sample.	\$75.00	1	\$75.00
<b>Terpene Test</b> Testing for the detectable Terpenes in the Biomass and refined commodities through the use of GCMS.	\$250.00	1	\$250.00
<b>Pesticide Test</b> Testing of cat 1 and cat 2 pesticides according to federal and CA regulations using the GCMS and/or LCMS.	\$450.00	1	\$450.00
<b>Residual Solvent Test</b> Testing of residual solvents typically used in processing of industrial hemp. Testing pursuant to federal regulations.	\$125.00	1	\$125.00
<b>Microbial Test</b> Testing for harmful microorganisms in a sample found in the processing of materials. Testing pursuant to federal regulations.	\$110.00	1	\$110.00
<b>Mycotoxin Test</b> Testing for Mycotoxins common to agricultural products using an LCMS. Testing pursuant to federal regulations.	\$110.00	1	\$110.00
<b>Heavy Metal Test</b> Testing to determine the amount of Heavy Metals that are in a product to ensure compliance with federal regulations on the limits of detectable heavy metals.	\$110.00	1	\$110.00
Subtotal			<b>\$2,730.50</b>
<b>Total</b>			<b>\$2,730.50</b>

# Payment Schedule

## Payment 1 - Damage Deposit and 30%Down

Initial Payment includes 30% of the cost to process the biomass to Crude. Must be paid prior to delivery of material.

## Payment 2 - 20% of Payment Due Prior to Refinement

Prior to processing the material to the commodity, Customer must pay 50% of the estimated costs of the total refinement of the Biomass.

## Payment 3 - Remaining 50% Due Prior to Release of Product

Prior to the release of material (*FOB Nemaaji*), customer must pay the remaining 50% of the total cost of processing the material.

## Minimums and Notes

Shuck and Buck Minimum: 2000 plants

Drying Minimum: 2000 lbs

Hemp to Crude: 10,000 lbs minimum, 15% minimum CBD content, <0.3% THC

Crude to Distillate: 20 kg input

Crude to Isolate: 20 kg input

OFFER VALID FOR 7 DAYS

CONSIDERED AN ORDER UPON SIGNING

PRODUCTION IS NOT SCHEDULED UNTIL PAYMENT ESCROWED, CERTIFICATION OBTAINED, AND W9 RETURNED

UPON COMPLETION OF THE PROCESSING, THE FACTORY WILL NOTIFY THE CUSTOMER THAT THE PRODUCT IS COMPLETE. THE CUSTOMER HAS 5 WORKING DAYS TO ARRANGE FOR SHIPPING WITHOUT PENALTIES.
